

Preliminary Match List

ACAMIS National VEX Robotics Finals

IMPORTANT NOTICE: PRELIMINARY MATCH SCHEDULE

Please be advised that the match schedule provided in this document is preliminary and subject to change. It reflects the currently registered teams. However, if any team fails to check in or does not pass inspection on the day of the event, the schedule must be modified.

Due to the random generation protocols within the Tournament Manager software, removing a team requires the entire schedule to be regenerated. If this occurs, a completely new schedule will be created, and no part of the existing match pairings or times can be preserved. Please treat this list as tentative until the final schedule is released on Friday on the VEX Via app.
